EXPERIENCE

Software Engineer Intern @ NumbersAPI

MAR 2022 - APR 2022 // San Francisco, CA

- Added Google Web Analytics to webpage to track user visits and activity
- Designed new model for database using SQLAlchemy and Flask
- Implemented user registration and login routes for API usage
- Applied request limits for API users using FlaskLimiter

Staff Accountant @ The Mat West Company

JUL 2019 - MAR 2021 // Sherman Oaks, CA

- Created monthly and annual financial documentation for IRS auditing by analyzing data and compiling reports
- Generated bank reconciliations, vacancy reports, and investment summaries
- Communicated the financial status of various properties and investment entities to my supervisor daily
- Resolved potential conflicts with clients regarding delinquent payments and check deposits

Field Operations Student Assistant @ UCLA Transportation Services

SEP 2018 - MAR 2019 // Los Angeles, CA

- Guided prospective students around campus, answering questions, providing directions, and offering them access to transportation services

PROJECTS

Jobly – a Job Board inspired by Indeed built with React, Express, HTML, and CSS

Warbler – a Twitter clone built using Python, Flask, and PostgreSQL.
Github

Volunteering

Daily Bruin – Covered UCLA's women's water polo and men's soccer teams for the school's premier student-run newspaper. [Daily Bruin](#)
